

Multi Cleaning Wipes

Cleaning Wipes

V01
02/2025

Description

The Carsystem Multi Cleaning Wipes effortlessly and thoroughly remove even the toughest dirt from surfaces, hands, and objects while remaining gentle. By using both sides of the wipe, heavy soiling can be tackled with the abrasive side, while delicate surfaces can be cleaned gently with the soft side.

The wipes are stored in a dispenser bucket to protect them from contamination.

Area of application

Carsystem Multi Cleaning Wipes can be used to clean surfaces on various substrates and are also highly suitable for skin cleaning. They effectively remove dirt such as oil, grease, fresh paint, fresh adhesive, polyurethane, tar, tree resin, and rubber residues from industrial floors.

Benefits

- Free from solvents, lint, and silicone
- Free from allergenic ingredients
- Ideal for all common cleaning tasks

Product Data

Material data

Dimensions:	26.5 cm x 32 cm
Material:	Polypropylene
Colour:	Blue cleaning wipe, impregnated with a slightly cloudy liquid
Density:	0.95 - 1.05 g/ml (liquid)
pH Value:	6.2 – 8.2
Composition:	<5% non-ionic surfactants
Wipes per roll:	90

Handling

Open the bucket by removing the lid and pull the first wipe from the centre of the roll through the central opening in the lid. Close the lid again. Pull the wipe from the top of the bucket through the lid and take wipes as needed.

Individual wipes can be removed via perforation. Use the rough side of the wipe for heavy soiling and the soft side for delicate surfaces. Rub the wipe over the soiled area until clean. Applying slight pressure will speed up the process.

We recommend testing on an inconspicuous area before use to check for material compatibility.

Storage and Transportation Conditions

Store the product in a cool, dark, and dry place, away from food and animal feed, and out of reach of children and animals. When stored properly, the product has a shelf life of 30 months unopened and 12 months once opened. During transport, ensure the container is securely closed. If necessary, transport it in an outer carton.

Remark

A safety data sheet is available on request.

For prolonged skin contact, it is recommended to wear protective gloves tested according to EN 374. Do not dispose of with household waste. Do not discharge into drains. Containers and product residues must be treated as hazardous waste and disposed of at an appropriate collection point. EBR 07 06 99 – Waste from the MFSU of fats, lubricants, soaps, detergents, disinfectants, and personal care products.

Safety issues

Directions for handling and waste disposal are in our Material Safety Data Sheet and the specifications of the Employers Liability Insurance Association for the chemical industry.

The before mentioned technical data and information, especially the recommendations for applying and using our products, are based on our current knowledge and experience when applied under normal conditions. In practice, the materials, surfaces or site conditions are so different that no warranty regarding the working results or liability, arising out of any relationship, can be inferred neither from this information nor from a verbal consultation, except we are charged with intent or gross negligence. In this case the user is obliged to prove that he has informed us about all points required for a proper and promising judgement in writing, in time and completely. Patent rights of any third party are to be observed. Furthermore, our general sales and delivery Terms and Conditions and the latest Technical Data Sheet, which should be demanded, apply.
